Declaration

- I/We have read and understood the Programme Handbook that explains on **plagiarism**, and I/we testify that, unless otherwise acknowledged, the work submitted herein is entirely my/our own.
- I/We declare that no part of this assignment has been written for me/us by any other person(s) except where such collaboration has been authorized by the lecturer concerned.
- I/We authorize the University to test any work submitted by me/us, using text comparison software, for instances of plagiarism. I/We understand this will involve the University or its contractors copying my/our work and storing it on a database to be used in future to test work submitted by others.

Note: 1) The attachment of this statement on any electronically submitted assignments will be deemed to have the same authority as a signed statement.

2) The Group Leader signs the declaration on behalf of all members.

Note:

- 1) A soft and hard copy of the assignment shall be submitted.
- 2) The signed copy of the assignment cover sheet shall be retained by the marker.
- 3) If the Turnitin report is required, students have to submit it with the assignment. However, departments may allow students up to **THREE** (3) working days after submission of the assignment to submit the Turnitin report. The assignment shall only be marked upon the submission of the Turnitin report.

*Use additional sheets if required.

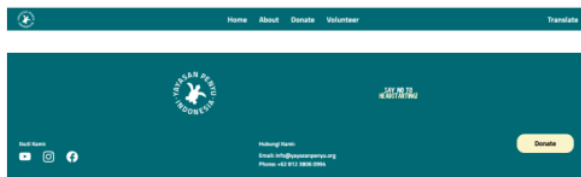

1. Device for development

- Asus TUF 505GD (1920 x 1080px)
- Iphone 14 Pro (393 x 852px)

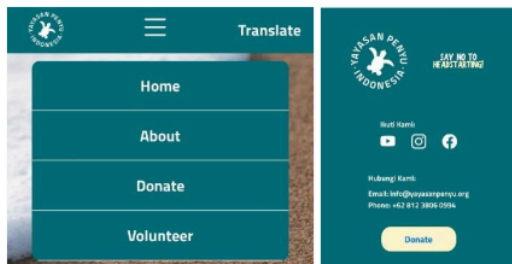

We have made this Indonesian Turtle Foundation (Yayasan Penyu Indonesia) website responsive so that all devices can access the website we created.

2. Web Screenshot and Explanation

2.1 Header and Footer

(Laptop)

(Smart Phone)

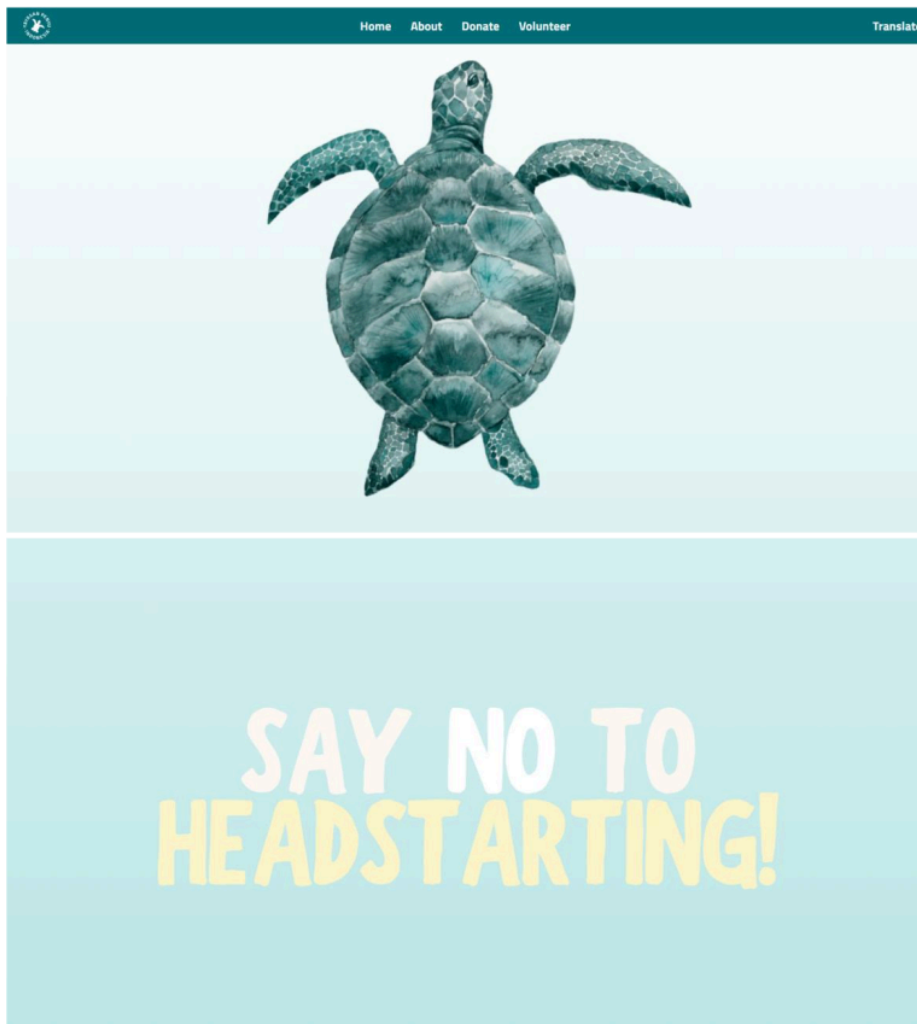

On the laptop display, the header height is 80px containing a logo measuring 48x48px on the left side. In the middle of the header there are four menu items Home, About, Donate, and Volunteer arranged horizontally with a distance of 32 px. On the right side there is a **"Translate", this function is used to change or translate the desired language, for example Indonesia to english.** Translate button measuring 140x40 px. The header background uses #007B7A and all elements are filled with 24 px padding.

On the smartphone section, the menu is filled with a 24x24 px hamburger icon in the upper left corner. When the icon is pressed, the menu will appear with a vertical arrangement containing navigation buttons and each is 64 px high.

On the smartphone display, the footer is made vertical to fit the small screen. The logo of the Indonesian Turtle Foundation and the campaign sentence "Say No to Headstarting" are placed

on the top right, containing the right size of the logo. The YouTube, Instagram, Facebook icons were originally 24x24 px, but had to be adjusted to fit the screen, with a distance of about 16 px. Contact information is displayed in one column so that the font can be read, having a size of 14 px. The "Donate" button remains 140x40 px, but its position changes to follow the width of the screen. Given enough vertical distance, about 20-30 px, so that the display fits

2.2 Home Page

The campaign page shows a landing section that displays a large turtle image with full width

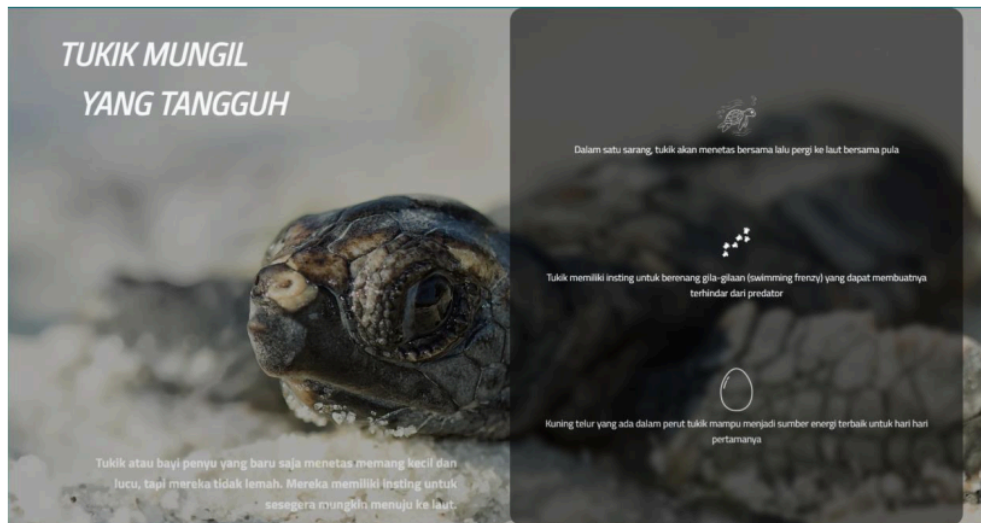

(width: 100%) and responsive height, after that there is a campaign that says “Say No to Headstarting!” which looks big.

Next, there is an educational video that uses the `<video>` element with active controls. This video is contained in a full-width container (width: 100%) without a max width limit, so the screen is adjusted. In CSS, this video is given the properties `display: block`, `width: 100%`, and `margin: 32px 0` to provide enough space. After the video, there is a campaign call-to-action, which uses the `.campaign description` class and uses a size of 16px and a line height of 28px, for easy reading. Vertical padding is around 24px–32px so that the text is centered with `text-align: center` or `margin: 0 auto`.

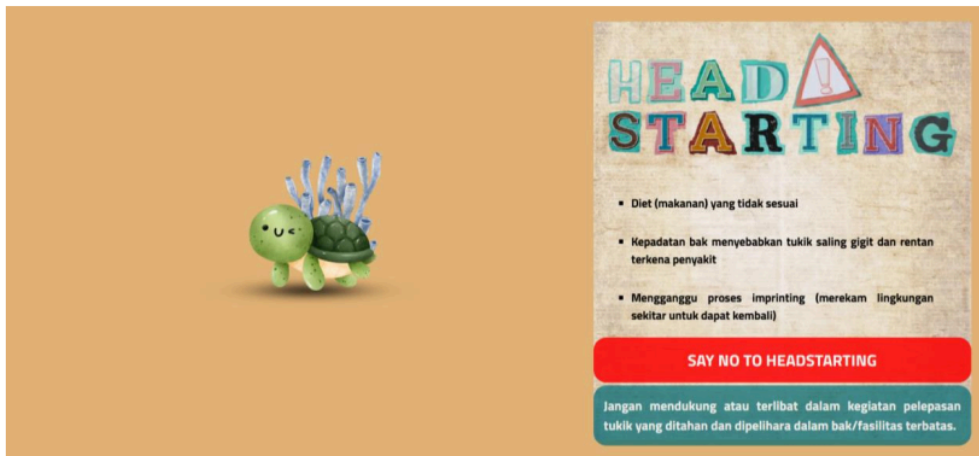

This section contains a call-to-action sentence that displays the `<h2>` element with a font size of 28px to 32px, is positioned in the middle (text-align: center), given a top and bottom distance of 40px to attract visitors. The text "RILIS TUKIK" is filled with bright yellow to provide strong information. Next, visitors can see a gallery containing educational activities. This gallery displays 4 activities (turtle education, ranger simulation, beach cleaning, and turtle storytelling). Each image is 300px to 400px wide, depending on the screen with a border radius of 8px and a bottom margin of 24px. The text in the image is displayed in a 24px bold white font, placed above the image with 12px padding to make it clearly readable.

In the “Tukik Mungil Yang Tangguh” section, we display the <h1> title in white, italic, and a font size of 52px and a top spacing of 40px. Placed on the top left of the hatchling image and full background, then below it contains text with a font size of 20px, white color, and bottom padding of around 32px. On the right side, there is a black overlay with not too transparent (opacity 0.5) containing a border radius of 16px, width 45% of the screen, and padding 24px. There are also three information points displayed in 20px font, white color, spaced between elements around 24px, each equipped with a 32px–40px icon.

In this section we display a large sentence with a bold black font with a size of 50px that is clearly visible. Below it contains four white information boxes with rounded corners and shadows, each text content is 16px and arranged with two parallel columns. The background has a geometric pattern with a cream color. At the bottom of the page, there is an illustration of two green hatchlings that have just hatched from eggs on the sand, we made this because it really supports the theme we are using.

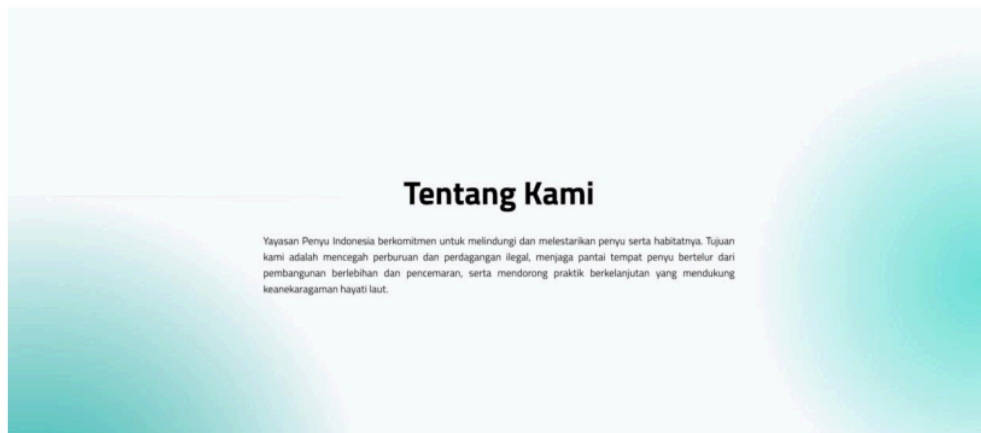

This section is an anti-headstarting page, there is learning on the campaign page. Contains two columns and a total width of about 1200px. In the left column, a 350px hatchling image is displayed, in the right column, the width is 850px which contains campaign content. The title image "HEADSTARTING" in the right column is 360px × 80px. and three risk points are displayed with a font size of 18px, a line height of 28px, and a distance between points of 16px. The text with a red background "SAY NO TO HEADSTARTING" contains a width of 650px, a height of 60px, a font of 24px, and a padding of 20px. At the bottom, there is text with a turquoise background and white text color. 650px wide, 50px high, 16px font, and 16px padding.

2.2 About Page

on the about page section is made with a structured layout. The beginning of this page uses a large `<h1>` displayed in the middle using a font size of 32px, a top-bottom distance of 60px.

Next, on the "About Us" page contains a paragraph with a font size of 16px and a line height of 28px, also using auto horizontal margins and 40px padding on the top and bottom, ensuring that it is readable on various devices.

visi

Visi kami adalah masa depan di mana penyu dan habitatnya terlindungi secara berkelanjutan, sehat, dan aman dari ancaman kepunahan dan kerusakan.

Misi

Misi kami adalah untuk berkontribusi pada konservasi penyu di lokasi proyek kami dengan bekerja sama dengan masyarakat setempat untuk menciptakan masa depan di mana penyu dan manusia dapat berkembang.

In the vision and mission section, this section uses two columns with display flex technique. Each text is displayed using a 16px font, and the image is combined on the right side with a width of 400px and height adjusted. And also the distance between columns is 40px,

In the program location section, there are navigation buttons that have a width of 150px and a height of 40px. Each button uses an 8px margin and a 14px font size. Below it contains a framed location table (1px solid border) with full width and 12px padding on the header, to convey location data for each region (Sumatra, Sulawesi, Bali) in a structured manner.

Perdagangan Ilegal Produk Penyu Masih Marak di Marketplace Populer!

Meskipun penyu dilindungi hukum, perdagangan produk berbahan penyu masih terjadi di marketplace digital seperti Shopee dan Tokopedia. Peraturan Pemerintah No. 7 Tahun 1999 dan Undang-Undang No. 5 Tahun 2000 mengatur perlindungan penyu dengan ancaman pidana penjara hingga 5 tahun dan/atau denda Rp 100 juta. Investigasi online YPI pada November 2024 menemukan 105 iklan aktif produk berbahan penyu dari 81 penjual di 38 kota/kabupaten, dengan total penjualan 20.884 pcs dan keuntungan lebih dari Rp 138 juta. Produk ilegal meliputi umpan pancing, perhiasan (gelang, cincin, liontin), minyak urut, pajangan, hingga keris.

YPI mengajak masyarakat untuk membantu:

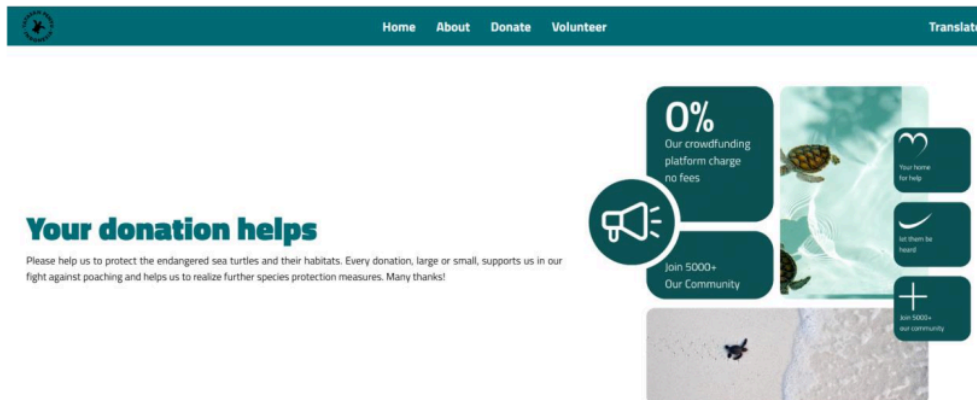

1. Cari produk ilegal menggunakan kata kunci unik (misal: Pnyu, Pendok).
2. Klik produk dan laporkan menggunakan fitur "Report".
3. Ajak teman untuk ikut melapor.

Satu laporan darimu bisa menyelamatkan penyu!

Tutup

In the last section, the news blog, is made with four interactive content blocks and given 16px padding, 12px bottom margin, and 8px corner radius. Each blog item has a font size of 16px and a click effect that will display a dialog box with a width of 600px, 24px padding, and 12px radius. The image in the dialog will be displayed in full and a 16px bottom margin, for the “Close” button is 14px with 10px x 20px padding and 20px top margin.

2.3 Donation Page

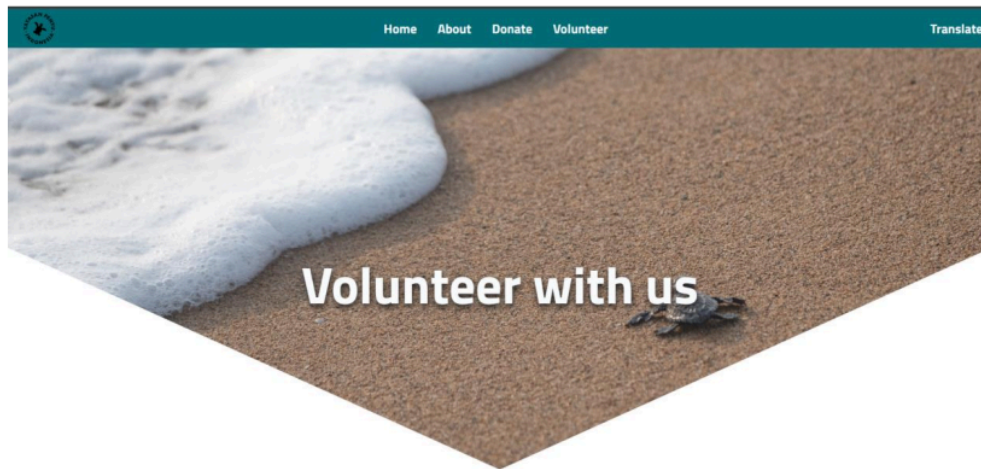

on this page we create two sections, landing and form. On the landing section, we use `<h1>` with the text "Your donation helps", with the color #026d77 and font size 32px. The paragraph inviting donations uses a font size of 16px and lineheight 1.5. on the side I added the image donate_landing.webp.

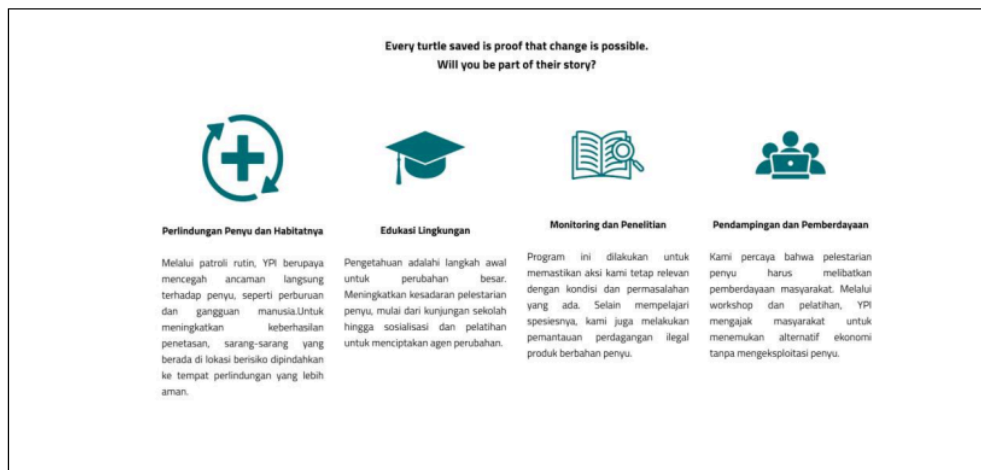

In the form section, we add input for name, email, phone number, country, message, and minimum donation amount of 10,000 rupiah. All input sections are filled with padding: 8px, font-size: 14px, and margin-bottom: 12px. The "Donate" button uses padding 10px 20px, font size 14px, and performs the `getDonateData()` function. On the side of the form we add the donation.webp image. all elements are given a scroll fade effect to appear when scrolled.

2.4 Volunteers page

On our volunteer page we divide it into three: Volunteer Page Landing, info and form. In the first section, only the title `<h1>` is displayed containing the text "Volunteer with us", using fontsize: 32px, font weight: bold, and text align: center.

The second part contains information about the invitation and 4 important parts of the YPI program. We display the invitation title using `<h3>` with a font size of 20px and a line height of 1.5. The four important parts of the YPI program are created in the info content div, each

containing an 80px icon image, a 16px font size title, a bold font weight, and a 14px font size description, and a 1.6 line height

Become Our Volunteer

Nama (contoh: John)

Email (contoh: john@email.com)

Umur (18 - 100)

Kota yang ditempati sekarang (contoh: Bali)

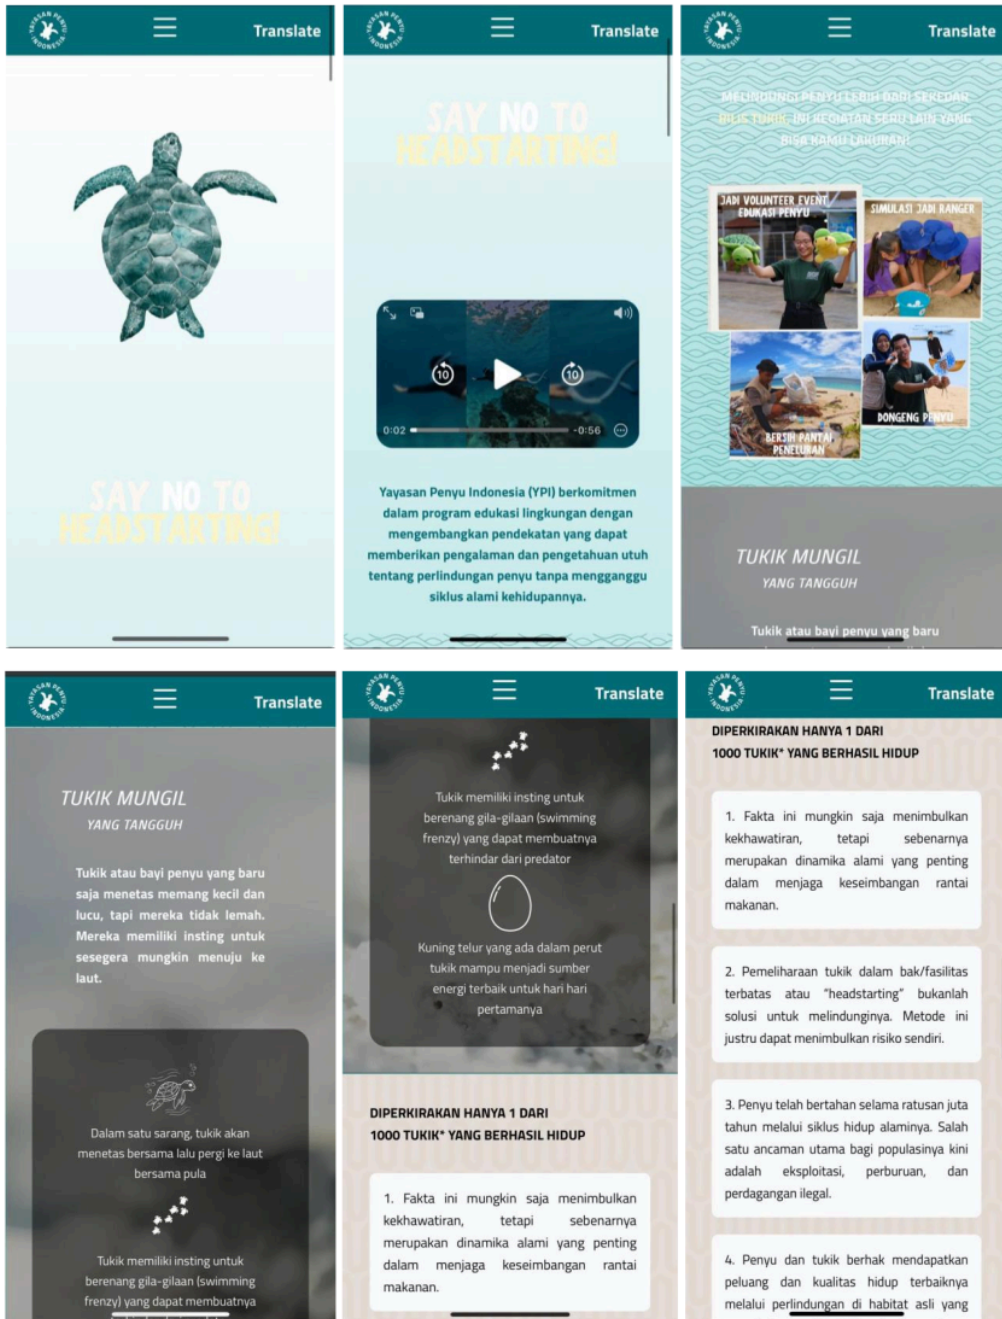

Nomor telepon (contoh: 0812xxxxxxx)

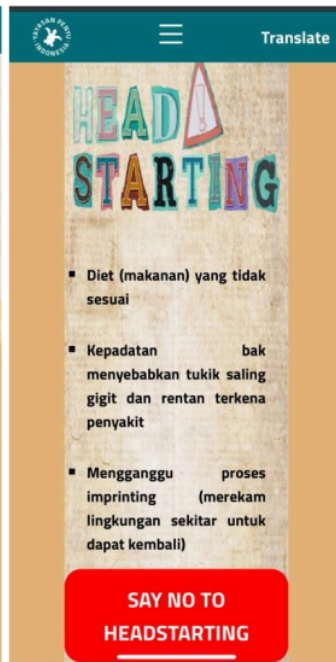

Register Volunteer

The third in the Form section, we give the title `<h1>` "Become Our Volunteer" with a font size of 28px, font weight bold, and a bottom margin of 20px. The form contains inputs: Name, Email, Age, City of residence, and Phone number. Each uses 8px 12px padding, 14px font size, and 12px bottom margin. The "Register Volunteer" button is given 10px 20px padding, 14px font size, and executes the `getVolunteerRegisterData()` function when clicked.

32             title: "Perdagangan Ilegal Produk Penyu Masih Marak di Marketplace Populer!",
33             content: `
34 \nMeskipun penyu dilindungi hukum, perdagangan produk
35 berbau penyu masih terjadi di marketplace digital seperti Shopee dan
36 Tokopedia.Peraturan Pemerintah No. 7 Tahun 1999 dan Undang-Undang No. 5 Tahun 1990
37 mengatur perlindungan penyu dengan ancaman pidana penjara hingga 5 tahun dan/atau denda
38 Rp 100 juta.Investigasi online YPI pada November 2024 menemukan 105 iklan aktif produk berbau
39 penyu dari 81 penjual di 38 kota/kabupaten, dengan total penjualan 20.884 pcs dan keuntungan
40 lebih dari Rp 138 juta.Produk ilegal meliputi umpan pancing, perhiasan (gelang, cincin, liontin),
41 minyak urut, pajangan, hingga keris.\n
42 YPI mengajak masyarakat untuk membantu:
43 1. Cari produk ilegal menggunakan kata kunci unik (misal: Pnyu, Pendok).
44 2. Klik produk dan laporkan menggunakan fitur "Report".
45 3. Ajak teman untuk ikut melapor.
46 Satu laporan darimu bisa menyelamatkan penyu!`
47         },

49             title: "Anak Sekolah Bersimulasi Menjadi Ranger Penjaga Penyu di Bali",
50             content: `
51 \nPada 16-17 Desember 2024, YPI mengadakan edukasi
52 penyu bersama 100 siswa kelas 1 hingga 3 dari SD Aruna Vidya.
53 Tujuannya untuk mengembangkan metode edukasi tanpa mengganggu
54 siklus alami penyu.Kegiatan dibuka dengan pengenalan siklus hidup
55 penyu melalui nyanyian, dilanjutkan dengan penjelasan dasar tentang penyu.
56 Setiap anak mendapat jurnal aktivitas.Anak-anak mengikuti dongeng
57 interaktif dan simulasi menjadi ranger. Mereka belajar mengidentifikasi
58 jejak, merelokasi sarang replika, dan menjaga dari pencuri fiktif.
59 Mereka juga melakukan aksi nyata berupa bersih pantai.Kimi, maskot
60 penyu sisik YPI, hadir di akhir acara dan menjawab pertanyaan dari anak-anak.
61 Para siswa menyampaikan komitmen menjaga kelestarian penyu.Terima kasih kepada
62 11 relawan luar biasa: Dinda, Abella, Ratu, Istya, Kina, Sony, Gita, Ika, Sita,
63 Rama, dan Rahmah.YPI berharap pengalaman ini menumbuhkan kepedulian anak-anak
64 terhadap penyu dan habitatnya.`

67             title: "Etika Mengintip Penyu Bertelur",
68             content: `
69 \nJakarta – Yayasan Penyu Indonesia (YPI) berbagi
70 tips kepada traveler yang ingin menyaksikan aktivitas penyu dan tukik
71 di tepi pantai.\n
72 Indonesia memiliki enam dari tujuh jenis penyu di dunia, yakni penyu hijau
73 (Chelonia mydas), penyu sisik (Eretmochelys imbricata), penyu lekang (Lepidochelys olivacea),
74 penyu belimbing (Dermochelys coriacea), penyu pipih (Natator depressus), dan penyu tempayan

```

```

1 (Caretta caretta).Keenam jenis penyu tersebut dilindungi oleh Peraturan Pemerintah (PP) Nomor
2 7 Tahun 1999 tentang Pengawetan Jenis Tumbuhan dan Satwa. Segala bentuk perdagangan penyu, baik
3 dalam keadaan hidup, mati, maupun bagian tubuhnya, dilarang. Undang-undang konservasi juga mengatur
4 sanksi bagi pelanggarnya.Jumlah penyu yang sedikit harus menghadapi banyak ancaman, termasuk dari manusia.
5 Operator wisata yang tidak peduli terhadap konservasi dan wisatawan yang tidak tertib termasuk
6 dalam ancaman tersebut.Ketua Yayasan Penyu Indonesia, Bayu Sandi, menyatakan bahwa wisata penyu tetap
7 bisa dilakukan dengan syarat tertentu. Traveler harus didampingi oleh ranger terlatih dan mematuhi
8 aturan konservasi.\n
9 Berikut adalah tips dari YPI untuk mengamati penyu bertelur:
10 1. Jangan menggunakan flash untuk memotret, gunakan lampu merah.
11 2. Jaga jarak minimal 10 meter dari penyu.
12 3. Tonton penyu dari belakang, jangan di depan penyu.
13 4. Jangan menyentuh penyu atau tukik.
14 5. Hindari berpesta atau membuat keributan di area konservasi.'
15 },
16
17 {
18     title: "Fakta, Tukik adalah Bayi Penyu yang Mandiri!",
19     content: "\nTukik adalah bayi penyu yang menunjukkan kemandirian luar biasa sejak lahir.
20 Mereka tidak ditemani induknya saat menetas.Tukik menuju laut dengan mengikuti cahaya
21 cakrawala. Namun, cahaya buatan dari pembangunan di pantai bisa membuat mereka tersesat.
22 Jika tukik berjalan ke arah yang salah, bantu arahkan ke laut, tapi jangan dipelihara
23 karena bisa mengganggu proses imprinting.\n
24 Berikut 6 fakta penting tentang tukik:
25 1. Perjalanan hidup tukik dimulai dari perjuangan menuju laut dan menghadapi predator.
26 2. Tukik mandiri sejak lahir tanpa asuhan induk.
27 3. Tukik bernavigasi menggunakan cahaya dan medan magnet bumi.
28 4. Tantangan berat di laut menunggu mereka, termasuk predator besar.
29 5. Tukik dan penyu dewasa penting untuk keseimbangan ekosistem laut.
30 6. Banyak program konservasi fokus melindungi tukik dan habitatnya.
31 YPI berkomitmen menjaga tukik di habitat alaminya untuk mewujudkan ekosistem laut yang lestari.'

5. CSS Validation

style.css

Jump to: Errors (5) Warnings (12) Validated CSS

W3C CSS Validator results for style.css (CSS level 3 + SVG)

Sorry! We found the following errors (5)

URI : style.css

738	section.program-location .program-location-button-list .location-list table	Value Error: border only e can be a unit . You must put a unit after your number: 1
887	section.donate-page-form form.donate-form input, section.donate-page-form form.donate-form textarea	Property field-sizing doesn't exist: content
1008	section.volunteer-page-form form.volunteer-form input	Property field-sizing doesn't exist: content
1353	.scroll-fade	Property animation-timeline doesn't exist: view()
1354	.scroll-fade	Property animation-range doesn't exist: entry 20% cover 40%

6. HTML Validation

index.html

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for uploaded file index.html

Checker Input

Show: ☐ errors ☐ warnings ☐ message report

Check by: No file chosen

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Press the Message Filtering button to collapse the filtering options and error/warning/info counts.

Message Filtering

Errors (2) · Hide all errors · Show all errors

1 ☐ Element |_tag| is missing required attribute |src|. (2)

Warnings (17) · Hide all warnings · Show all warnings

1 ☐ Section lacks heading. Consider using |h2| or |h3| elements to add identifying headings to all sections, or else use a |div| element instead for any cases where no heading is needed. (10)

2 ☐ Consider using the |h1| element as a top-level heading only (all |h1| elements are treated as top-level headings by many screen readers and other tools). (7)

Info messages (11) · Hide all info messages · Show all info messages

1 ☐ Trailing slash on void elements has no effect and interacts badly with unquoted attribute values. (11)

MARKING SCHEME

CLOs	Category	Descriptions	Marks Allocated	Marks Awarded
GROUP TASKS				
CLO2	Creating web pages with HTML	- Used the html, head, body, title, and meta elements - Used the new HTML5 structural elements - Able to code and display a web page document - Passed the HTML validation	10	
CLO2	Configuring text, color, and page layout with Cascading Style Sheets (CSS)	- Created style sheets that configure common color and text properties - Configured elements, class, id, and descendent selectors - Passed the CSS validation	10	
CLO2	Using media and interactivity on web pages	- Graphics are related to the theme/purpose of the site, are thoughtfully cropped, are of high quality and enhance reader interest or understanding. - Excellent organization. - No errors; loads quickly	10	
CLO2	Configuring text, color, and page layout with Cascading Style Sheets (CSS)	- The Web site has an exceptionally attractive and usable layout. It is easy to locate all important elements. - White space, graphic elements and/or alignment are used effectively to organize material. - Follows all web design best practices	10	
CLO2	Configuring text, color, and page layout with Cascading Style Sheets (CSS)	- Responsive web design - intelligently pruning amount of information displayed - making adjustment to the design to improve the users' experience while using the application. - Links for navigation are clearly labeled, consistently placed, allow the reader to easily move from a page to related pages (forward and back), and take the reader where s/he expects to go.	20	
CLO2	Creating web pages with HTML	- Correct syntax - Meaningful form elements - Input validation	10	

CLO2	JavaScript	- Used JavaScript & jQuery extensively to add interactivity - Complexity of the JavaScript used	10	
CLO3	The web development process	- Host the website using Github - Provide the link in the documentation	10	
INDIVIDUAL TASK				
CLO3	The web development process	Presentation: Able to explain the task completed	10	
	TOTAL		100%	
	LATE SUBMISSION		-5 per day	
	PENALTY - The misconduct according to Academic Integrity Policy varies depending on the severity - No Turnitin Report - No Assignment cover page			
	OVERALL		100%
