

**CSW202**  
**WEB PAGE PUBLISHING**  
**FEBRUARY 2026**

**Assignment No** : 2  
**Release Date** : 10<sup>th</sup> March 2026, Monday  
**Due Date** : 11<sup>th</sup> May 2026, Monday  
**Value** : 30% of final total  
**Assessment Type** : Group *Assignment (4 students per group)*

***Course Learning Outcomes***

This assignment assesses the following learning outcomes:

- CLO2: Build webpages using markup, style sheet and scripting languages.
- CLO3: Integrate best practices in accessibility, usability, and search engine optimization in designing a professional website

**SUBMISSION INSTRUCTIONS:**

|                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

|  | Turnitin similarity reports will be generated by the lecturer and penalties imposed for similarity <b>exceeding 20%</b> .<br>You may be subject to additional penalties according to the <a href="#">Academic Integrity Policy</a> . |
|--|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## USE OF AI TEXT GENERATORS (AITG)

1. AI tools can be used in the assessment for brainstorming, creating structures, and generating ideas for improving work. Any AI created content must be cited accordingly.

### Terms and Conditions for using AITG

**AITGs can be used on limited basis for assessments in this course.**

Any use of AITGs must be properly acknowledged.

Any cases in which Turnitin detects more than **30% AI-generated content** in an assignment will be referred for review **when AI tools may be used on a limited basis**.

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Use of AI generative tools</b> | <ol style="list-style-type: none"> <li>1. Utilizing AI generative tools should be seen to augment creativity, problem-solving, and productivity while maintaining the integrity of the subject matter and upholding academic and professional standards.</li> <li>2. Students must demonstrate their own knowledge, skills, and understanding of the subject matter in their work.</li> <li>3. Where an assignment requires ChatGPT to be cited, you must reference all the content from Generative AI tools that you include. Failure to reference externally sourced, non-original work can result in Academic misconduct.</li> <li>4. Students are to apply <b>APA Style</b> for any AI content generated that is utilized and integrated into the final work. This acknowledgment is to be added to the <b>footnote</b> of the respective pages. <ul style="list-style-type: none"> <li>• <b>To cite AI-generated work that you did not edit or revise:</b><br/>Name of AI Tool. (Year, Month Day you generated the content). Exact text of question or prompt you entered [AI-generated text/image/video, etc.]. Name of Company/Developer if different than name of AI tool. URL.<br/>Example: ChatGPT. (2023, June 3). "Steps of creating a running website using XAMPP?" [AI-generated text]. OpenAI. <a href="https://chat.openai.com">https://chat.openai.com</a>.</li> <li>• <b>To cite AI-generated work that you edited or revised:</b><br/>Name of AI Tool &amp; Your Last Name, First Initial. (Year, Month Day you generated the content). Exact text of question or prompt you entered [AI-generated text/image/video, etc.]. Name of Company/Developer if different than name of AI tool. ## ASSIGNMENT 2 (WEB SITE PROJECT)

For this Assignment 2, you need to design, develop, and publish a web site using recommended design practices identified in the Assignment 1. You are required to create an external style sheet (.css file) that configures text, color, and page layout. (No font tags, embedded CSS, or inline CSS to be used).

Your web site project will be evaluated on the following criteria:

- Including all required web page elements
- Visual appeal of site to target audience
- Accomplishment of project's objectives
- Publishing of your web site.
- BOTH Google Chrome and Microsoft Edge able to render each page.
- Responsive design - render well on a variety of devices and screen sizes
- Presentation: Be prepared to show your web site to the class, explaining the purpose behind each page and how you have developed it.
- Please refer to the marking scheme for further details.

### Assignment checklist:

*The following items should be included in the assignment submission:*

- Include assignment cover page.
- Take the print screen of each web page in the browser and paste it on the word document with explanation on how each page was created.
- The print screens of the validation reports by <http://validator.w3.org> for all your HTML5 and <https://jigsaw.w3.org/css-validator/> for all CSS files used; (Note: Marks will not be given if the HTML5 and CSS code did not pass the validation.

- Write the reference of the website/ books used to get the information and referred for the coding etc.
- Host Website on Github and provide the URL in your documentation.

## MARKING SCHEME

| CLOs               | Category                                                                          | Descriptions                                                                                                                                                                                                                                                                                                                                                                                                                                  | Marks Allocated | Marks Awarded |
